Geospatial World Forum (GWF) 2023

08.05.2023 12:27

Geospatial World Forum (GWF) has become a not-to-be-missed conference for the professionals engaged in geospatial and allied sectors. It is a collaborative and interactive platform that demonstrates the collective and shared vision of the global geospatial community. GWF is an annual gathering of geospatial professionals and leaders representing the entire ecosystem of public policies, national mapping agencies, private sector enterprises, multilateral and development organizations, scientific and academic institutions, and large end-users from government businesses and citizen services.

This year's Forum was held in Rotterdam, Netherlands on May 2-5, 2023. Representative of the Federal Geodetic Administration, Mr. Jasmin Ćatić attended the roundtable on Land and Property and presented new Strategy on Spatial Data Infrastructure of Federation of BiH based on IGIF.

At the Forum attended about 1,000 delegates from 78 countries, over 700 organizations, over 300

presentations were held on various topics both in the field of land administration and in the field of new technologies, satellite systems, remote sensing, etc.
