

IMPULS Project Coordination Board Meeting

15.10.2014 11:25

A meeting of the IMPULS Project Coordination Board was held on 14 October 2014 in the offices of the State Geodetic Administration of the Republic of Croatia in Zagreb (the Republic of Croatia). This project is funded by the Government of the Kingdom of Sweden and includes eight (8) cadastral and mapping agencies from the region, i.e., its main beneficiaries. The implementing partners on this project are Lantmäteriet (Swedish geodetic authority) and the State Geodetic Administration of the Republic of Croatia. The main objective of the project is to assist the agencies from the region with implementation of the European Union's INSPIRE Directive concerning spatial data infrastructure, especially in the segments of legal regulation, harmonization, and data sharing. The 2014 project implementation report was discussed and approved, the 2015 activity plan was proposed, and the list of responsible persons from the agencies for each project activity (work package) was agreed in the aforementioned meeting.
