The Croatian Geodetic Society organized the 8th Cadastre Congress titled “Cadastre – Support for Land Management” in Zagreb from 13 to 16 May 2026. The congress was held under the sponsorship of the Ministry of Physical Planning, Construction and State Assets and the State Geodetic Administration, in cooperation with the Croatian Chamber of Geodetic Engineers, the Faculty of Geodesy of the University of Zagreb, and the International Federation of Surveyors (FIG), Commission 7 – Cadastre and Land Management and Commission 9 – Valuation and Management of Real Estate.

The congress gathered more than 300 participants and offered a series of interesting workshops and lectures in the field of land administration. Special attention was devoted to introductory lectures on real estate valuation and the real estate market, as well as workshops dedicated to new technologies, modernization, standardization, and infrastructure solutions in land management.

On behalf of the Federal Administration for Geodetic and Real Property Affairs, the congress was attended by Director Željko Obradović.
