

Presentation of Completed Activities Under Pilot Project on Development of Address Register in Čitluk Municipality

19.12.2014 08:55

As part of the planned activities and a workshop under subcomponent 5.2 (Address Register Development) of the CILAP Project, a presentation entitled „Completed Activities on the Implementation of the Law on Manner of Marking and Recording Inhabited Places, Streets, Squares, and House Numbers “ was held on 9 December 2014 in Mostar.

The objective of this presentation was to present the Project on Development of Infrastructure for Establishment and Keeping of Spatial Unit Register (Address Register) to all mayors in Herzegovina-Neretva Canton (HNC). At the start of the presentation, Mr. Željko Obradović, Director of the Federal

Administration for Geodetic and Real Property Affairs (FGA) of FBiH, and Mme Anđa Zimić, Director of the CILAP Project, highlighted the importance of addresses to the society and benefits of their use.

Mr. Ivan Lesko, Director of the Administration for Geodetic and Real Property Affairs of HNC, and Mr. Adelko Krmek, representative of the working group established under the CILAP Project, presented the activities that were completed under the pilot project, in the course of which legislation was developed, as well as a modern application for establishment and keeping of address register system, with central database at the FBiH FGA, which Čitluk Municipality started using. The developed application and experiences gathered during implementation of the pilot project will be used going forward in other municipalities in FBiH.
