Signed Contracts for the Adaptation of the FGA Archival Space in Visoko

03.11.2025 14:43

The Federal Administration for Geodetic and Real Property Affairs signed two separate contracts on November 3, 2025, as part of the GIVE project, which is financed by the World Bank.

- ITC d.o.o. Zenica has been engaged to carry out construction works for the adaptation of the existing building at the Matrez location in Visoko into an archival storage for FGA.
- Enova d.o.o. Sarajevo is responsible for supervising the implementation of the works to ensure technical compliance, quality, and timely project implementation.

The aim of the project is to adapt and reconstruct the existing building to create a modern and secure archival space that will enable long-term and reliable storage of cadastral and other records under FGA's authority.

In addition to the professional supervision carried out by Enova d.o.o., the Project Implementation Unit (PIU) within FGA will perform institutional oversight and coordinate project implementation to ensure full compliance with World Bank standards and the planned project objectives.

All works are expected to be completed within six months, further strengthening FGA's capacity to manage data of strategic importance for cadastre and land administration.
