

Status of the Address Register establishment in the Federation of Bosnia and Herzegovina

10.07.2020 09:09

FGU
Federalna uprava za geodetske i imovinsko-pravne poslove

The Federal Administration for Geodetic and Real Property Affairs started initiatives for establishment, maintenance and distribution of the Address Register data of the Federation of Bosnia and Herzegovina through CILAP Project activities and financing from the budget of the Federation of BiH and joint financing with administrative organizations on cantonal and local levels.

We would like to inform you that 74 municipalities of the Federation of Bosnia and Herzegovina are in the process of the Address Register establishment, and activities have been initiated in the remaining five municipalities.

Below you can see the status of the Address Register establishment in the municipalities of the Federation of Bosnia and Herzegovina:

- Currently, there are 23 municipalities that have completed the AR establishment and working on maintenance through the AR application: Cazin, Čitluk, Dobož Istok, Dobož Jug, Dobretići, Domaljevac – Šamac, Fojnica, Glamoč, Grude, Hadžići, Ilidža, Ilidža, Kiseljak, Kreševo, Kupres, Livno, Ljubuški, Neum, Pale – Prača, Posušje, Stari Grad Sarajevo, Tešanj and Trnovo.
- Currently, the Address Register is being established and maintained in 23 municipalities
- Slow operation was recorded in 15 municipalities, and 9 municipalities face difficulties in their work for various reasons (municipal decisions, parliamentary procedures etc.)
- Four municipalities showed interest for the Address Register establishment and held meeting with AR coordinator
- In the remaining five municipalities currently does not exist the interest for starting the Address Register establishment.

The Address Register data will be available to all citizens through the FGU Geoportal. Currently, data have been prepared for 21 municipalities, where the AR establishment has been fully completed and will be published in the coming period.

Improved version of the Address Register application (ADR 4.0) will be established in all beneficiary municipalities.

The Federal Administration for Geodetic and Real Property Affairs and CILAP Project are offering technical assistance and support to all municipalities, especially those who have difficulties or are in the initial phase of AR establishment, in order to start and complete this work of great importance for Federation of BiH.
