On 15 December 2025, an online meeting of the Organizing Committee of the event “The 1st Surveyors’ Days of the Federation of Bosnia and Herzegovina” was held. The meeting was attended by Ferid Durmišević and Edis Imamović on behalf of the Association of Citizens of the Geodetic Profession “Geodet”, Slobodanka Ključanin and Goran Trogrlić representing the Federal Geodetic Administration, as well as Sara Mihaljević, Ivan Lesko, and Danijel Barbarić representing the Geodetic Society of Herzeg-Bosnia.

During the meeting, it was agreed that the event would be held in Neum, at the Grand Hotel Neum, from April 24 to 26, 2026. An outline of the event programme was also agreed upon, while the final decision regarding the number and titles of presentations, as well as the topic of the panel discussion, will be made at one of the upcoming meetings.

In early December 2025, members of the Geodetic Society of Herzeg-Bosnia visited the Grand Hotel Neum to assess its capacities and suitability for hosting such an event. Based on the information, it was agreed that the sports activities included in the event would consist of the following disciplines: five-a-side football, bocce, darts, table tennis, and chess.

During February 2026, invitations to participate, as well as sponsorship invitations, will be sent out.
