

The report on the implementation of the FGA Work plan for 2020 adopted at the FBiH Government Session

26.02.2021 13:21

The Report on the implementation of the FGA Work plan for 2020 has been adopted on the 257th regular session of FBiH Government on 25 February 2021.

The Work Plan contained following tasks:

1. Making of the topographic database and visualization
2. High Precision Leveling Network Project III
3. The Land Consolidation project
4. Making of the Real estate cadastral database
5. Scanning and georeferencing of cadastral plans
6. The Real estate cadaster establishment

7. Support to the Address register establishment
8. Spatial Data Infrastructure
9. Establishment of the Utility cadaster software
10. Testing of transformation parameters

The Federal Geodetic Administration has been realized almost all planned activities (96.6 %) during 2020 despite the situation caused by COVID-19 pandemic.
