

## Training for the use of Address register application in Ljubuški Municipality

29.08.2016 15:38

After signing a Contract on transfer of use right on software to maintain Address register data, the installation of address register application has been conducted. On August 25, 2016 a training for use of address register application at premises of Municipality Ljubuški was supported by Federal Administration for Geodetic and Real - Property Affairs and CILAP project. The training was attended by members of the Cadastre Office and Department of Dwelling and Communal Services which will be responsible for Address register maintenance. The training was successfully completed and further steps of cooperation and support during the establishment and maintenance of Address register have been agreed.
