VISIT OF STUDENTS FROM BRČKO SECONDARY TECHNICAL SCHOOL

08.03.2018 14:49

First and second grade geodetic students from Brčko Secondary Technical School visited the Federal Administration for Geodetic and Real Property Affairs on 7 March 2018. The visit was organized in the annual school programme as a one- day excursion.

A Geoinformatic sector employee, Mr. Denis Tabučić held a presentation and introduced students with the work, responsibilities and current projects of the Federal Geodetic Administration. Since most students are planning to continue their education at the Faculty of Civil Engineering- Geodetic Department, this presentation was useful for future education.

Students and teachers asked numerous questions, mainly about the Geoinformatic sector because this subject is not included in the school's curriculum. This visit was useful for all students, especially those who plan to study at the Geodetic Department of the Faculty of Civil Engineering.
