

Workshop within Component 5 “Support to development of ICT and Geoinformatic’s system” was held

30.03.2017 10:02

In premises of Republic Administration for Geodetic and Real Property Affairs of Republic Srpska a two-day workshop during March 28 - 30, 2017 in Banja Luka was organized by CILAP project (Capacity Building for Improvement of Land Administration and Procedures in BiH), which is carried out with support of Kingdom of Sweden donor funds in Bosnia and Herzegovina.

Representatives of entity geodetic administrations on this occasion have presented the current situation related to ICT and geoinformation systems, which served as basis for creation of future activities and definition of needs for support within CILAP project.

Plans for support of establishment and development of ICT and geoinformation systems continue to meet the needs of both Administrations for Geodetic and Real Property Affairs, and upcoming project activities related to the development of the Address Register, Sales Price Register and the Digital Archive.
