

Workshop within the DELEF project

31.05.2024 15:15

In accordance with the planned activities within the Swedish donor project DELEF (Digital Enhancement of Land Management for the European Future of Bosnia and Herzegovina), a workshop was held in the Federal Geodetic Administration as a part of Component 4 " Geodetic infrastructure" from May 29 to May 31, 2024.

Representatives of the Federal Geodetic Administration and Swedish experts for basic geodetic works participated in the workshop, and the main goal was to review the data for the creation (modeling) of geoids and to analyze the available data of gravimetric, leveling and GNSS measurements.

Further steps on collecting additional measurements and structuring existing measurements for the needs of creating geoids were also agreed upon.

```
// Load JS file theme Galleria.loadTheme('files/galleria/themes/classic/galleria.classic.min.js'); // Initialize
Galleria Galleria.run('#gallery-1' , { width: 'auto', height: 500, transition: 'fade', initialTransition:
